E' Tire old Nicolai house, on the cor ner of Thames and Green streets, was sold at auction yesterday, and in to be re-Amoved. The lot is owned by Rutus B. Kinsley, Esq., who intends to erect upon it immediately a large three attory building of stone or brick, with an iron front. When completed, one part of the first, floor, will be occupied as Kinsley's Express Office, and the other part by the Aquidueck Bank. This will be a great improvement to that part of Thames street; and we are glad that it is Mr. : Kinsley's determination to erect a fire-proof-building.

- The first shad of the season were taken at the Stone Bridge, Tiverton, and were for sale in this city, yesterday, by Mr. John L. Cranston; they went off like hot ? cakes, and were all disposed of in a lewmoments after they were recieved by him.

The Artillery Company had a very pleasant Hop at their Armory Wednesday evening: refreshments were served between the dances. They will be continued occa-; sionally for some weeks to come.

GOLD MINING IN VIRGINIA .- The Fred cricksburgh News describes a bar of solid gold from the Vaucluse Gold Mine. " It is worth \$1100, and is the product of fifteen daya labor.

The new postage law in no manner -- abridges the franking privilege—the right to send and rocieve letters and packages, not weighing over two ounces, free in the mails. Norunder it, is it obligatory to refuse to transmit latters uddressed to the Departments in Washington without prepayment of postage. Such letters, us well as those of members of Congress, may be transmitted as heretofore.

The General railroad Association held a meeting in New York Tuesday evening. No business of public innerest was transacted.

From Kansas .-- A correspondent from Kickapoo Gity, Kansas territory, under date of March 28, 1855, writes that the streets ere their a trou per arche, and mat the tun. 18. ing are the usual price of provisions :-Pork 6 cents per pound; buet 7 cents; venison 9 cents; mutton 7 cents; chickens \$2 per dozen; turkeys 75 cents per mir; gerse 26 cents each; eggs 12 t-2 cents per dozen ; flour \$4,50 per hundred . pounds. Wood \$2,00 per cord, delivered. Competent brick makers are particularly wanted.

Holloway's Pills, an extraordinary Reinedy for Determination of Blood to the Head--Henrietta Wright, of Newburg, New York, suffered most excessively for eight years and a half from termination of blood to the head, so body at times that she would fall down in crossing a room as if dead. She consulted three different physicians, and studiously followed their advice, which however failed to benefit her, and her dissolution was hearly expected. this time she tried Holloway's Pills, which quickly did their work, by removing from the system all the noxious matter, carrying off the bad fluids, and left her in the enjoyment of perfect health; her friends have all been astonished at the apparent transfernation, yet all this has been offected by Holloway's Pills.

Commissioner Wuldo has decided that persons employed in the revenue cutter service do not belong to the navy. The fact that a revenue cutter in a time of war. was employed to carry instructions, does not change her organic character. In this view of the question, the officers and crew of the revenue cutter service no matter where or whon employed, are not entitled to land bounty under the act of March 3 1855.

BOUNTY-LAND APPLICANTS .- The number of applications since the bounty-land act of March 3, 1855, received at the Persion Office up to April 7, was fifty thousand five hundred. Number of applications received for the week ending April 7, nineteen thousand seven hundred. Chief Clerk Cole and his little army of enhardinates have literally their limbus full of work.

Commissioner Waldo has also declare that no one person can receive the aggrgate bounty for separate services. In the case of a woman marrying twice, ansurviving both husbands, and both entitled to bounty land, she is only entitled to on bounty, but she may make her election inder other husband. If there he miner children living of the non-elected harband, they are also untitled to lend.

WORKS AT THE NAVY YATU. A TOW will of days ago, the caulkers, to the numbetween 65 and 70, who were employed on the new steam frigate Merrimack, al the Mary Yard struck for higher pay. and recipred \$2,60 per day and decompled 23 which was the ruling price in all ship vards in this vicinity. The request was yards la this vicinity. refused, and the caulkers left the yard .-Orders have since been given not to admit them to the navy yord for any purpose, and they are consequently excluded. Heluto this order was given, two of the number were taken lack into the yard, Efforts have been made to supply the places of those who have left; although the country has been scoured, but 12 men have beer found who would, under the circumstances enter the yard; consequently the work up on the new frigate will be delayed,, and in will be hardly possible to have the frigute ready for launching by the 1st of June.

The orders to get the Cyano and Seratoga ready for sea immediately have been execu ted promptly, and the sloops are now ready to recieve the supplier of provisions on board. Of the crew, nearly 150 men will be transferred from the Ohio. The officers have not yet been ordered. The destination of the Cyane and Saratoga is not 'yet known, but it is presumed that they will proceed to the waters of Cuba. They will be ready for sea in the course of the present week, -[Boston Chronicie.

CCBA .- The National Intelligencer publishes a translation of a dispatch from the Spanish Minister of Foreign Affairs, to the Captain General of Cuba, in which he distinctly declares the determination of the government to maintain slavery on the Is. land. He says:

"The entire nation, legitimately represented by the Constituent Cortes, with the unanimous basent of all the Deputies. and in entire confermity with the manifestation, likewise ununimous, of all the Ministers of the Crown, has just proclaimed in the sitting of the 8th the firm resolution of all to "protect property in the form and in the conditions which are proper to it in that portion of the monarchy," recognizing explicitly that one of the MOST ERSENTIAL in STAVERY, to the end that slaveholders may have the preservation of their property assured to thum by the national vote, and may count, consequently, upon the efforts of government wintever that government may be.

This is the vote that was so singularly misrepresented by an erroneous translation.

The United States stenmer Fulton, in her search for the Albany, is reported to have fallen in with, off the southern coast of Caba a mast of a man-of-war, the iron bands of which she took off and brought in to ascertain whether they may not be identified as having belonged to the Albany. The Coust seventy miles west of Port Cabello. She was abandoned, not a small hoing found on board. Took from her an iron chest thought to contain treasure. It has not been opened. Could not ascertain the ship's name. She was thought to have been from Chagres, bound to Jamaica, with passengers, as several trunks were on board .- Norfock Herald.

The London Daily News of the 19th, contains a severe stricture on the management of the New York Industrial Exhibition, for neglect and carelesaness in the return of goods to the owners . Mr. Rogers, of London, reports damages to his own goods to the extent of £109, and that a claim for duty, expenses, &c. to the amount of £15 had been presented against him, although he had had a guarantee that goods should be returned free of charge.

WAR's Doings .- The dashing 93d Highlanders, the prido of the English army, left Constantinople eight hundred strong, and after their arrival in the Crimea recieved an addition of one hundred and fifty men. This gallant regiment has recently returned to Constantinople reduced to fourmen and live officers, still bearing with them their glorious and unsulfied banner.

The New York correspondent of the Boston Transcript gives the following items of доваір :

"I was asked the other day if I know who was the Mayor of New York, and answered Fernando Wood, 'You are mistaken, said my informant, the real Mayor and energotic reformer behind the scenes is Rev. Dr. Tyng, of whose church the ostensible Mayor is a prominent member.

I have seen the early chapters of irving's "Washington," and find that he has succeeded in gleaning many new facts, and that a distinctive feature of the biography will be the illustration of Washington's after careor by the peculiar discipline of his early education, and the hereditary qualities of his constitution,

WASHINGTON, April 11,

The Union of this morning announced another Cuban outrage. The beig P. A. Hickinson, Irom Boston, bound to Matanzan, when a few miles from the coast of Cuba, was fired at three times by a Spanish cruiser.

The first ball was thrown sstern of the brig, the second fired ahead of her, and the third bull it is supposed with the intention of hitting the vessel. After an examination of the Hiokman's papers, she was allowed to proceed on her voyage.

WASHINGTON, April 11. The following officers are to be attached to Lieut. Hartstein's Aretic expedition :

Lient, Charles C. Simms, to command the tender.

Passed Midshipman Watson Smith, Wil liam S. Lovell, and Juseph P: Fyffe, and Pirst Assistant Engineer Harman Newells Mr. S. P. Griffin, formerly in charge of the Rescue in the American expedition to the Arctic, under Lieut. Do Haven, is to by attached to the expedition in the capacity of master's mate.

Passed Midshipman Lovell was also in the expedition under Lieut. De Haven.

THE COST OF PROVISIONS .- Now, while we are paying in the Washington markets from 12 to 18 cents per pound for beef, from 30 to 40 cents for butter, from 50 to 75 cents a pack for potatoes, and unspeakably high prices for: flour, and every thing else essential to our existence, a plan to reduce the cost of those things may not be disregarded; and we are grattfied to learn from the New York Times that a good plan has been devised either to do this or to give the producers of the unicles we consume the benefit of the existing high prices. It appears that the editor of the Express Mussenger has had several hundred blanks printed and circulated among the numerous varous agont, in the Western agricultural wins and villages, with a request that they amount be filled up with the prices durrent in their respective localities. The result is a Rural District Prices Current, compris ing returns from a hundred localities. By this prices' current it appears that in numerous places accessible to New York by the cheapest railroad lines, and hence not very inaccessible to any of the larger cities. the prices of butter, potiliry, &c. ere only about half of what the same article. command in the New York markets. For instance, "table butter" is quoted by many of the local express agents at from five to seven cente per pound; chickens at from \$1.20 to \$1.50 per dozen; and turkeys at 37 ocute each; and this in localities whence treight to New York does not cost more than two or three dellars per hundred weight.

We fully recognize the useful agency of narket dealers in this and every other community; but if they, or the persons from whom they purchase, are not satisfied with such moderate profits as the people of the cities can afford to pay, it is important that we should know the fact and seek an adequate remedy for the evil. The two dollars a day of a mechanic are hardly sufficient to meet the wants of his family, however economical, during the prevalence of the existing prices .- Nut. Intel. __

IIT The statue which has recently been erected in St. Paul's Cathedral, London, to the memory of Bishop Herber, is said to be unsurpassed in beauty of design and excellence of execution. He is kneeling, attired In his tobes, with one hand resting on the Bible, as his support, and the other upon his breast. On the pedestal, in has relief he is represented in the act of confirming two Indian converts,

STEAM FIRE ENGINE.-A mechanic of Pittsburg has submitted a model of a steam fire engine, of his invention, which meets the layer of the Board of Underwriters of that city. The inventor claims for it, that it is lighter, cheaper, and will do more service, (i. e., throw more water than the Cincannad engine.) It is calculated to weigh sixty hundred or three tons. It will be filteen feet long by six feet wide; will throw 1338 gailous of water 400 feet in one minute, or a stream of 3 1-2 inches or sir stream of 138 mepe, will be directly ET. The feed of jurious in the higher up u5 test. The current will also noswer ? courts of Ma salimants have been increased to extinguish three with steam, instead of water. The cost will be \$5000.

> UNLAWFUL MARRYING .- A CICTUYIDAN Sent to Prison.—At O. cford, England, re-cently, the Rev John Allen Giles, D. C. L., was indicted for m arrying at uncanonical hours, and making a false entry in the register. The jury found a verdict of guilly, but recomme indea the prisoner to mercy; and in addressing the court, he stated that he had work a for many years past very hard, at the rate of twelve hours a day, publishing the ancient records of the country. One I fundred and twenty voluses were the result of his labors. His study had been so great that he frequently did not know what he was doing. Lord Campbell, the presiding judge, sentenced him to impris onment, without hard labor, for twelve mounths.
